

TABLE 8.—*Summary of entomological surveys on the extended (residual spray) program, 1945-46*

Months after spraying	Houses sprayed ¹	
	Number	Percent free of <i>A. quadrimaculatus</i> in p.m.
<i>1945</i>		
0 to 1.....	3, 916	98. 9
1 to 2.....	4, 558	98. 3
2 to 3.....	3, 557	95. 7
3 to 4.....	1, 375	94. 7
4 to 5.....	723	94. 2
Total.....	14, 129	97. 2
<i>1946</i>		
0 to 1.....	6, 018	99. 2
1 to 2.....	6, 739	99. 0
2 to 3.....	5, 321	99. 1
3 to 4.....	2, 974	98. 7
4 to 5.....	899	98. 2
Total.....	21, 951	99. 0
Grand total.....	36, 080	98. 3

¹ In 1946, in a total of 1,639 unsprayed houses adjacent to the treated areas, 87.3 percent were free of *A. quadrimaculatus* in p.m.
