Why should I use MyArmyBenefits?

- Planning -

You may think: "I'm too busy," or "It would never happen to me," or "Someone will take care of all that for me." The reality is none of us know what tomorrow will bring. To best prepare for the future, we should all properly plan to set ourselves and our families up for success. Everyone needs a plan. What is yours? Where do you begin? The Army provides a tool, free of charge, to help you create and manage a plan to build your future. The **MyArmyBenefits** calculators can help you and your family plan and make decisions, no matter what the future may hold.

- Separating -

Learn how to take advantage of those hard-earned years on active duty. The **MyArmyBenefits** Retirement Calculators will show you what you need in order to qualify for a Reserve Component retirement. The years you served as an Active Duty Soldier would be converted to the point system used to calculate a Reserve/Guard retirement. A few years serving as a Reserve or Guard member could pay huge dividends. Compare the advantages of continuing to serve for you and your family.

- Retirement -

Planning is crucial when you are ready to make the move to retirement. **MyArmyBenefits** can help you and your family plan for the future. You can estimate your retirement income, decide where to retire, and understand what benefits you and your family will be eligible to receive.

- Death -

How can you make sure your family is taken care of in the event that you die? Do you know what your family is eligible to receive? Did you know your spouse will have to make a lifelong financial decision upon your death? Did you know that your survivor's monthly benefits will be reduced by as much as 2/3 when your youngest child turns 18? How will your survivor manage his or her benefits and entitlements? How will they protect and invest those benefits? Should your survivor pay off debt, buy or sell a home, pay off college loans? **MyArmyBenefits** can help guide you and your family on how to plan and manage survivor benefits.
